PROJECTS

Business Portfolio: https://ikigugugroup.rw/, https://virungahomestay.com/

Windows Student management system: https://github.com/Aimecol/Student-Management-System.git

Portfolio Website: https://github.com/Aimecol/dynamic-cv-example.git

E-commerce System – Designed and implemented an online shopping platform with product management, secure payment integration, and a user-friendly interface to enhance the shopping experience. I have it locally

Business Portfolio – Created a professional portfolio website to showcase businesses, services, and projects, integrating responsive design for better user accessibility. I have it locally

E-learning System: https://aimecol.github.io/E-learnPro/

Estate System: https://aimecol.github.io/Estate/RealEastatePro/

Lost and Found System *(Freelance Project)* – Designed a system for users to report lost items and search for found items; featured a verification mechanism to ensure rightful ownership. I have the project locally.

Buy Ticket System *(Freelance Project)* – Created an online ticket booking platform where users can select events, book seats, and make payments securely. I have the project locally.

Voting System – Developed an online voting system with reliable authentication, ensuring transparency and security in elections for organizations and institutions. I have it locally

---

EXPERIENCE

Owner | Hardware Store, Kigali-Kinamba-Gakinjiro
2020 – 2021

- Provided Rwandan e-services, clothing printing, bank, mobile, and Irembo services.
- Managed printing services including papers, PVC cards, and banners.
- Offered RRA and RDB services to clients.

Service Provider | PEDA Ltd, Kayonza-Kabarondo
2021 – 2022

- Continued providing e-services, financial services, and printing solutions.
- Assisted in streamlining operational workflows for business services as manager.

Freelance & Academic Projects
2024 - 2025

- Worked on various freelance software development projects, including Lost and Found System and Buy Ticket System, which were presented as final-year university projects.
- Designed and developed customized solutions for business and academic needs.
- An Advanced Blood donation system, working on it currently

Collaborated with clients and students to refine project requirements and deliver high-quality software solutions.

LANGUAGES

- English (Fluent)
- French (Intermediate)
- Kinyarwanda (Native)
- Swahili (Good)
